

AI Workflow Commissioning Review

Use before a pilot begins · Page 1 of 2

Purpose: make a use case specific enough to operate, govern, teach and measure. This is a working template—not an assessment of any current SupplyHouse initiative.

5 · EVIDENCE CONTRACT

DIMENSION	BASELINE / ASSUMPTION	MEASURE	REVIEW THRESHOLD
Adoption			
Employee confidence			
Workflow performance			
Quality / risk			
Economic / customer value			
Reusable learning			

KNOWN ASSUMPTIONS AND DISCOVERY GAPS

ASSUMPTION	HOW IT WILL BE TESTED	OWNER / DATE
------------	-----------------------	--------------

RISK AND EXCEPTION REHEARSAL

CREDIBLE FAILURE	DETECTION	HUMAN RESPONSE	LEARNING CAPTURED
------------------	-----------	----------------	-------------------

COMMISSIONING DECISION

Commission pilot	Repair first	Hold / stop
Conditions are bounded and evidence is credible.	Close a readiness, authority, enablement or evidence gap.	The value, risk or ownership case does not support proceeding.

APPROVALS AND NEXT REVIEW

FUNCTIONAL OWNER	IT / DATA	LEGAL / SECURITY / HR AS REQUIRED	NEXT REVIEW
------------------	-----------	-----------------------------------	-------------

Scale rule: a pilot earns expansion only when the intended work improves, reliance remains appropriate, users understand the limits, support ownership is stable and the learning can repeat.
